3 p.m. at Fairlight

Sunday Services December 3rd.

11 a.m. Preaching at Haig
3 p.m. Preaching at Lundell
7:30 p.m. Preaching at Bow Island
C.G. Hockin, Pastor

Mrs. Hainbow will be spending this weekend in town, the guest of Mrs. Hain.

Mr. C. H. McCallum has returned from Creston where he went to see about getting some logging rights.

Mr. Thompson Whitney left on Tuesday for a visit at Langdon, Sask.

The workers have been very busy this week at the Culling Brick, they have finished covering the roof with ruberoid and all will soon be in readiness for the winter storms.

Grain Prices

Local prices for grain here at Bow Island on Thursday 23rd, November are as follows:-
Wheat No. 1 Northern 35c per bushel
Oats 2 C.W. 34c, per bushel
Rye 45c, per bushel
Flax \$1.71 per bushel

A. O. B. NOTES

On Friday last the 17th, last, the I. O. O. F. Hall, Bow Island was the scene of a very merry dance given by the recently organized A.O.B. Club this being the first of a series of amusements which they intend putting on during the winter months.
Dancing commenced at 9 o'clock and was continued until 12 o'clock when a delicious lunch was served by the Club which was thoroughly enjoyed by all present.

During the interval those present were given slips of paper which were used for guessing the name of the Club which up to that time had been a secret.

A choice box of chocolates awaited the one guessing the correct name but unfortunately no one did and this brought about a short address from the President J.W. Hutton who very ably explained the name of the A.O.B. Club and also what their aims were.

After this dancing was resumed which lasted until 2 o'clock when the playing of "Home Sweet Home" brought the evening's proceedings to a close.

The A.O.B. Club wish to heartily thank all who patronized them in their first venture and will appreciate their presence together with that of their friends in the next evening's pleasure which they hope to shortly provide.

Mr. C. H. Bell returned from the North of Alberta, last week, where he has been working for the past few months.

Just received a small supply of Gas Globes.

We have a fine assortment of Coal Heaters on hand, the very best also a 5-Feed Mill and a 3 H.P. Kerosene Engine with Magneto - at a Snap - Swenson & Co., Main Street - Bow Island.

We are very sorry to learn that Mr. B.B. Rensen of Maleb is still lying in a very critical condition, our sympathy goes out to the family in their trouble.

Mr. Barney Burns is leaving shortly to spend the winter in Minnesota.

Mr. and Mrs. C. H. Bell went to Medicine Hat on Wednesday evening.

Mr. N. Wallwork who is staying in town with his daughter, Mrs. R.T. Whitney, has improved in health so that he is able to walk around the house.

Sudden Death of a small Baby, last Friday

We are very sorry to report the sad and sudden death of the little child of Mr. and Mrs. Kinnear, the little one passed away in its sleep, the death caused quite a shock to the parents as it had appeared to be in its usual health that morning, much sympathy is felt for the sorrowing parents.

The funeral took place last Sunday afternoon.

WINTER VEGETABLES

I have a good stock of Winter Vegetables at tempting prices for You consisting of Potatoes, Cabbage, Carrots, Onions, Turnips and Parsnips all in the best of office, also a good variety of No. 1, No. 2 and Domestic Pack Winter Apples.
HOBSON'S General Store

Services will be held on Sunday November 26th.
Morning Service 11 a.m.
Evening Service 7:30 p.m.
Everybody Welcome

The All Saints' Ladies' Aid met with Mrs. Tansell last Thursday, a nice social time was spent after the business was over during which the hostess served a dainty tea.

The next meeting will be at the home of Mrs. Ruch on Thursday the 1st December.

Miss Terrie Hailston left on Wednesday for a visit to Calgary, and other places.

Mr. Langford returned from Edmonton where he spent the past two weeks.

Jack Fortune has purchased an outfit from Redcliffe for Well Drilling we wish him every success.

Mrs. Weeks has been quite sick this past week, we sincerely hope she will soon recover her health again.

The following was handed in to the Review for publication.

Justice
Edmonton, November 17th, 1922
Editor of the Review

Sir
This morning my husband was taken away to Lethbridge prison because he was unable to pay court expenses which were put against him because his children were not at school. Why were they not at school? - because of unfair treatment of the local School Board who called for Tenders for driving the School Van the ad. read as follows:-

Tenders will be received by the undersigned until noon of August 20th for the driving of Van from the South East portion of School District to School Bus Highway.

Lowest Tender not necessarily accepted.

Article C. Gage-Sey-Tress, now this ad has appeared with the same words practically for the last four years and the van comes to the south east portion in this district, this year the van did not come to this part but was fixed one dollar and costs but the children ready for the van the first four mornings, but the driver didn't come for them.

My husband and I interviewed the board but we got no satisfaction from them, so we kept the children waiting for the van, and as the van did not come they were left at home, after four weeks the Board had my husband summoned before a local Court and he was fined one dollar and costs but having no money he could not pay and he was told to go home, and now after about five weeks my husband was suddenly whisked away to prison with out a moment's notice, leaving me with six young children to shift for myself, and did not ask whether we had anything to eat or not, in this context, is this a sample of fair play in this country's Free Country?

Mrs. R.A. McDonald, Bow Island
I hope you will print this letter in the Bow Island Review

WINNIFRED NEWS

From Our Own Correspondent
Mrs. Will Campbell is leaving Friday Nov. 24th for a lengthy visit to the State of Kansas with her parents and relatives.

Mr. Ernest Hine's many friends regret to learn he is indisposed this week with a very bad case of Lagraipie for a couple of weeks.

Miss Emmie Walker of Macleod is the guest of Mrs. Ted Windombe for a couple of weeks.

Automobile Thieves Busy
Automobile thieves visited the home of Mr. Jack Chisholm, the manager of the Citizens Lumber Company on Monday night and took the front wheels and cap to the car and many other things, this is the second stealing from his garage within a month.

The home of S.E. Angle was also visited by thieves the same night, when they stole half of a beef and three steaks and 15 turkeys were stolen from his place. Constable Bradner is working on the case.

Special Services will be held in Winnifred School house from Nov. 26th, to Dec. 12th. Sunday Services at 11 a.m. and 8 p.m., week nights except Saturday 8 p.m. Speaker Rev. J. K. Unsworth of Victoria, B.C. the Socialist and director of song is Mr. T.H. Nichol. Helpful messages and bright gospel songs.

Mr. Pete Rosenheck left Nov. 20th, to consult a specialist optician.

Mr. Jack Bell and C.W. Sutter were visitors to Medicine Hat on business last week.

Mr. Geo. Phelps of Medicine Hat, traveler for C.W.T. Soap Compound spent Monday in Winnifred.

Winnifred U.F.A. chose new leaders at a meeting held Nov. 16th, to elect new officers for the new year, the chosen ones were Mr. Alex Smith for President, Mr. Geo. Dunn for first vice president and Mr. Tom Parker Secretary Treasurer.

Mr. A. Gabrielson was the lucky party to win the quilt raffled at the Norwegian Ladies Aid's last meeting.

Mr. Henry Lawless the halliff of Whittla was in Winnifred on Saturday to cry the Charlie Morgue Sale Mary Godfrey vs M.H. Smith.

Little Margaret Rodger's many friends were glad to hear she is progressing so well at Medicine Hat Hospital after her operation for appendicitis.

The dance and whist drive given by the local U.F.A. Nov. 17th, was largely attended and proved a perfect success, seven Persons, Whittla, Pettie Plains and Bow Island dancers added largely to the crowd.

P.C. Bushing did some first class butchering on Monday, nine hogs and one beef were slaughtered, the cattle and hogs belonging to Ted Winchcombe, Harvey Davis and Bushing.

Mr. Jack Bell and C.W. Sutter were visitors to Medicine Hat on business last week.

Mr. Geo. Phelps of Medicine Hat, traveler for C.W.T. Soap Compound spent Monday in Winnifred.

Free Distribution of Grain

A free distribution of superior sorts of grain will be made during the coming winter to Canadian farmers by the Cereal Division of the Experimental Farms Branch, Ottawa. The samples will consist of spring wheat (about 5 lbs.), white oats (about 4 lbs.), barley (about 2 lbs.), field peas (not garden peas - about 5 lbs.), field beans (about 2 lbs.), flax for seed and flax for fibre (about 2 lbs.).

The Cereal Division of the Experimental Farms Branch has improved many of the old varieties of grain and introduced many new varieties. The best of them have been multiplied and propagated under direct supervision of responsible officers on the Experimental Farms both east and west. This seed will form the bulk of stock from which the various samples will be taken. The seed is therefore the purest and best that is obtainable. One of the more recent introductions, there is only a limited supply, so it would be advisable to apply as soon as possible for these.

Among the grains for distribution will be found the Liberty hulls out an oat that is excellent for human use, and to a limited extent for young livestock. Among the wheat, the most outstanding for distribution will be the Ruby wheat, a wheat that ripens from right to ten days earlier than Marquis and is suitable for district where Marquis is not early enough. This year among the barley will be found the Charioteer No. 8. This is a two-rowed barley that has a

tendency to drop its awns. The supply of this variety is very limited. We hope also to distribute Himalayan barley, a hulls variety which is a good yielder and suitable for young livestock. There will be only one variety of peas for distribution, namely Mackay Ottawa 35 which is a main crop pea and not suited to districts where early frosts occur.

The object of the distribution is twofold, first, that the farmer may get a small sample of good seed to start his seed plot; second, that the farmer may find out how their improved grains will behave under various conditions of soil and climate. Therefore it is necessary that all the information asked for on the application form should be fully answered. This also holds true with the report forms which each man is asked to fill out after he has grown the sample.

Application must be made on a printed form which will be supplied by the Cereal Division, Central Experimental Farm, Ottawa. (No postage is required on letters so addressed.) No application forms will be supplied after February 15th, 1923.

Farmers are advised to send at once for forms in order not to be disappointed, as in some cases the stock is limited. The allotment of samples will be made in order of application. Only one sample will be sent to a farmer. Central Experimental Farm, Ottawa, Canada.
Mention this paper when writing.

In the shack, in the farm house,
and in the city house, RED ROSE
TEA is the standby.

Helping Settlers To Make Good

Canada needs population. Practically everybody recognizes the fact, and Governments, Dominion and Provincial, and various corporations and organizations, have long been devoting thought to the problem of how to get immigrants, and millions of dollars have been expended in trying out different policies and methods.

As a result hundreds of thousands of people have come to Canada from the British Isles, the United States, and continental Europe during the past twenty-five years. Nevertheless Canada's growth in population has been disappointingly slow, the increase recorded at each succeeding census being less than what should be shown through natural increase alone.

What, then, because of the hundreds of thousands of immigrants who came to establish homes in this country? Unquestionably many of them have made a success in this country. These successful new citizens are to be met all over the country. But many did not remain in this country, and the even more unfortunate fact is that Canada lost to other countries, principally the United States, tens of thousands of its native sons and daughters. These are unpleasant facts to record, but they are true. It is a very physician who thoroughly diagnoses his patient's disease before he attempts to prescribe treatment or operate, and it is such of wisdom for the Canadian people to thoroughly study and understand the situation and find out what is wrong as a necessary preliminary step to applying a remedy.

There can hardly be any question that, so far as these Western Provinces are concerned, many people and, indeed, whole communities, have learned by bitter experience just what is wrong in at least one very important respect. It has been found that some thousands of settlers have located on land which is not suitable for grain growing, with the inevitable result that after a year they have suffered crop failures, and have witnessed their former vainglorious, swallowed up, their labor spent for naught, and themselves, burdened with an accumulation of debts.

These people have become discouraged, and naturally they fall up stakes and move elsewhere. In their letters to their former homeland, they tell gloomy stories of conditions in Canada, and when they move away they warn other people against trying the same experiment which has resulted disastrously for them. Nobody can blame them, but the inevitable effect is to offset and largely nullify all the efforts of our Immigration Department and its agents, because a few such failures overshadow the much larger number of successes which can be recorded.

The first lesson for Canada to learn is the exercise of much greater care in the location of people on the land. That, however, is insofar as future policy is concerned. The immediate problem is to tackle within a brief time the immediate problem presented by those people who are still here and struggling along in such unfavorable locations, and, instead of allowing them to be lost to Canada, take active measures to locate them elsewhere in this country where they can make a success of farming operations.

The Dominion Government is, fortunately, able to meet this need and the Minister of the Interior has announced that, at the next session of Parliament, legislation will be introduced making provision for the granting of certain homesteads to those farmers who have been unable on account of continued drought conditions, or other reasons for which they are not themselves responsible, to make good. In other words, steps are to be taken to provide such farmers with a new and suitable location. This is good business, because these farmers, who have become acquainted with conditions and methods of agriculture in this country, and who have proven their worth by hard work and real optimism and courage in the face of insurmountable difficulties, are the very type of men this country needs. The retention and ultimate success of one such man is worth more to Canada than the bringing in of half a dozen new and inexperienced immigrants.

But the action which is announced the Federal Government is about to take is but one step along the road which must be followed. There are many others in the same predicament as these homesteaders, and they must be provided with new locations.

This whole question is so vitally important to all Canada, and our future is so bound up in finding a solution, that it is proposed to continue a discussion of the problem along constructive lines in future articles in this column.

A New Tower Of Babel

Monster Labor Temple Proposed by The Moscow Soviet

They who have at the idea of his (or) repeating itself will have to reconsider their incredulity when they pause before the latest announcement from the Moscow Soviet, says the Montreal Star. This is nothing less than the construction of a building to have the largest tower in the world to cost seventy million dollars, to accommodate several thousands of people, and to be known as a labor palatium.

The obvious intention of the Soviet in planning such an edifice is to divert the attention of the wretched Russian laborer from his present painful condition, and provide him with something that will keep him quiet for another brief space. The Tower of Babel was begun with intentions no very far removed in basic principle from those of the Moscow Soviet. It was never completed, if we are to accept the historic record and the exact rules as proof.

But the Moscow temple may very easily be completed, if the Soviet treasury holds out. Moscow will then enjoy the unique distinction of being the city with the record building and the record public suffering. It is doubtful a distinction in which the Soviet will rejoice greatly, but even the dulled intelligence of the people will eventually penetrate the pretence. When it does, the doom of the Soviet, Russia will be sealed and Russia will start on the road to freedom.

GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

London Building Largest Reservoir The London waterworks system will shortly possess the largest reservoir in the world. It has been under construction for ten years and when completed will have a capacity of 6,500,000 gallons.

Love in a cottage needs a vivid imagination.

Tanlac Does The Work, States Rickson

Still another who ventures for the fact that "Tanlac makes you eat better, sleep better, work better and feel better," is Jerry Rickson, 1001, 4th St. West, Calgary, Alberta, Canada. Mr. Rickson said:

"Four years ago I was in a terribly run-down condition, and kept getting worse. I was in such bad shape I fell off from a hundred and fifty-eight pounds to a hundred and thirty, and I felt you it took a mighty effort for me to keep on working. My nerves were very shaky, and I got but very little rest at night. My appetite dwindled to almost nothing and even when I did venture to eat a regular meal it did me no good whatever."

"I saw by the papers where Tanlac was being praised by lots of people, so I started taking it, and I am glad I did. Five bottles put me in the shape again. I eat heartily, sleep soundly, and have gained back a lot of my lost weight. Tanlac does the work without a doubt, and I am more than glad to recommend it."

Tanlac is sold by all good druggists.

A Touching Tribute Chairman, addressing a meeting: "I am sure we will be very sorry to see you go, but I cannot say miss 'vacant chair,' but I do say we miss 'vacant face.'" London Times.

MOTHER!

Your Child's Bowels Need "California Fig Syrup"

Hurry Mother!—A box of "California Fig Syrup" now will thoroughly clean the little bowels and in a few minutes your child will be happy and content. Even a cross, fidgety, constipated child loves its "fruit" taste, and mothers can rest easy because it never fails to work all the little and delicate organs right out of the stomach and bowels without griping or hurting the child.

Tell your druggist you want only the genuine "California Fig Syrup" which gives directions for babies and children, and all ages printed on bottle. Mother, you must say "California" before any imitation.

It is estimated that the dog has been man's companion for about 7,000 years.

An Oil for All Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in "The Fisherman's Friend" a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue bruises and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicine chests and be amongst those taken on a journey.

Potatoes In Canada There has been a generous harvest of potatoes in Canada this year; the total yield being 92,485,100 bushels, of which the three prairie provinces of Manitoba, Saskatchewan and Alberta produced 15,025,000 bushels. The largest production was in Quebec with 36,089,000 bushels. Ontario next with 15,480,000 bushels, then New Brunswick with 2,715,200; Nova Scotia, 7,055,400; Prince Edward Island, 1,474,500; and British Columbia, 2,516,000.

Knows The Feeling "Have you ever stood amid the vast silence of the Garden of the Gods, or beside the great rumble of Niagara Falls, and realized what a puny, insignificant thing man is?" said the Old Pagan.

"No," replied the grocer, "but I know how it feels. I once attended a Suffragette mass meeting." Cincinnati Enquirer.

The way to peace is not through arms and navies. You do not gain against hydrophobia by raising dogs on a large scale.

Repulses Heavy Eyes Wipe your eyes with Dull and Heavy eyes, use Murine, it is the only safe remedy for all eye troubles. Murine does not irritate the eyes. It is sold by all druggists and is the only safe remedy for all eye troubles. Murine does not irritate the eyes. It is sold by all druggists and is the only safe remedy for all eye troubles.

MURINE FOR THE EYES

Constantine Was Thrifty

Ex-Ging of Greece Will Not Have To Beg

Ex-King Constantine is in no need of charity in a financial sense. He can worry along too without further aid, shortly American in his plate profits.

During the first period of his exile in Switzerland "Tino" was in moderate financial straits, but he pretended to be penniless in order to arouse sympathy in Greece. On returning to Athens he received as compensation for temporary loss of power \$5,000,000 gold drachmas, \$1,750,000. Other members of his household got \$100,000 more. His annual salary after the restoration was paid in gold. Maximos, the Governor of the Nation at Tanlac and a royalist, having arranged for more than half of his salary, being very economical. He did not enter talking and knew that sooner or later he would have to go. In addition to the compensation and unpaid salary, all of which was deposited about during the second period of his reign, he sent out of Greece most of the property he inherited from his father. At present he is worth several million dollars, if it is estimated.

An Oil that is Pried Everywhere—Dr. Thomas' Electric Oil was put upon the market without any flourish about it. It was put up to meet the wants of a small section, but its merits became known. It had a low temperature for a field, and it is now known and used throughout this continent. There is nothing else to it.

Object To New Length Skirt

Women of Gotham Will Wear Dresses No Longer Than Seven Inches From Ground

The ankle skirt was removed officially and permanently removed from the wardrobe of 30,000 New York women by the action of delegates to the convention of New York City Federation of Women's Clubs. In voting unanimously to wear dresses no longer than seven inches from the ground. The resolution sounding the death knell of the long skirt, urged women everywhere to free themselves from apparel now being introduced with glaring edges that nearly sweep the ground and carry germ laden dirt into the home. The club women also urged that garments be made of sufficient material to prevent the freedom of all parts of the body.

Phonograph Alarm

Instead of the strident ring of the alarm clock, sweet strains of music may awake us in the future if a recently invented clock comes into general use. The clock consists of a cabinet containing a complete phonograph mechanism and an alarm attachment connected with the brake of the talking machine. At night the record is placed in position and the alarm set for the rising hour. When the designated time the sleeper is awakened by the melody of his favorite record.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

The First Step

Doctor—Your nerves are weak. You must take a vacation. Patient—Then get my nerves strong enough to ask the boss for one.—Boston Transcript.

"Cascarets" 10c

For Sluggish Liver or Constipated Bowels

When you feel sick, dizzy, upset, or when your head is dull or itching, your stomach is sour or gassy, just take Cascarets. No gripping, no laxative-cathartic on earth for grown-ups and children. No taste. Taste like candy.

It is impossible for a fellow to beat all the fast trains to all the grade crossings.

Minard's Liniment For Colds, Etc.

Alberta Phones

The Provincial Telephone Department is now compiling its 1923 programme of construction work in different parts of the province. About three thousand miles of line, consisting mostly of rural telephone lines, will have been strung when the contracts have been let, and several new exchanges, including Calgary and Lethbridge cities and one or two points in the Peace River district have been built.

Anaemia

This watery blood is no more nourishing than this watery milk—skim milk.

But you can soon enrich this blood, overcome the anaemic condition and build up the whole system by using Dr. Chase's Nerve Food.

Mrs. F. G. Simmons, 42 Custer St., Brampton, Ont., writes: "For about eight years I suffered from anaemia. My circulation was poor, my gums and my hair were falling out, and my hands and feet were always cold. I was nervous and unable to sleep well. I had frequent headaches, neuralgia and was easily worried or irritated. There was a buzzing sound in my ears. Indigestion was also one of my complaints, and I often was attacked by weak spells. I went to a doctor who told me I was anaemic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt better and my headaches completely disappeared. I continued using the Nerve Food for quite a while. I am quite well now, and cheerful and easily worried or irritated. There was a buzzing sound in my ears. Indigestion was also one of my complaints, and I often was attacked by weak spells. I went to a doctor who told me I was anaemic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt better and my headaches completely disappeared. I continued using the Nerve Food for quite a while. I am quite well now, and cheerful and easily worried or irritated. There was a buzzing sound in my ears. Children Cry for Fletcher's

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by its soothing and cooling, it secures the assimilation of Food, giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Measuring Depth of Fog

Instrument Used by London-Paris Air Service

The Paris-London air service has an ingenious instrument for measuring the depth of fog above the starting place at Croydon or Abbeville, and so to determine whether it is safe to fly in dry weather a few hundred feet. The instrument, which is based on the property of human hair of contracting sharply on passing from wet to dry air, consists of a hair attached to a trigger that holds a ring. The instrument is sent aloft with toy balloons on a string; as soon as it reaches dry air the hair contracts, pulls the trigger, and down comes the ring on the string.

HOW'S THIS?

HALL'S CATARRH MEDICINE will do what we claim for it—find your system clean, clear and healthy again. It is a medicine that does not recommend for any other dry weather a few hundred feet. The instrument, which is based on the property of human hair of contracting sharply on passing from wet to dry air, consists of a hair attached to a trigger that holds a ring. The instrument is sent aloft with toy balloons on a string; as soon as it reaches dry air the hair contracts, pulls the trigger, and down comes the ring on the string.

Special Crop of Apples
During the year that closed on June 1, the Wenatchee Valley in the State of Washington shipped stateside thousands of apples, or one apple for almost every inhabitant of the world. It is reckoned that the yield this year will be one-tenth less. The prosperity of the Wenatchee apple district under its system of co-operative effort should be an example to other communities that are adapted by soil and climate to produce a special crop.

SPARKLING EYES

Follow Good Health

London, Ont.—"I have taken Dr. Pierce's Favorite Prescription and it has proven a beneficial tonic. I have been a sufferer from 'catarrh of the bladder' for several years. I decided to take the 'Prescription' and by the time I had taken one bottle I was completely restored to health and strength. Dr. Pierce's Favorite Prescription can be relied upon as a bulwark and strengthening tonic."—Mrs. John Shuler, 225 Clarence St.

IF YOU'RE A YOUNG WOMAN OR EVEN IN MIDDLE LIFE

Here is Some Good Advice for You

From a Prominent Woman

London, Ont.—"When I reached middle age I was in very poor health, was nervous, nervous, would have fainting spells and beat flesh. I was a physical wreck. I had tried many different medicines but the only medicine that gave me relief was Dr. Pierce's Favorite Prescription. Before I had taken a half bottle I was feeling like a different person—the more I took the stronger I got. What 'Favorite Prescription' did for me I am sure it will do for every woman at this critical point of life if they will give it a fair trial."—Mrs. M. M. Taylor, 609 Hill St.

Better go now to your neighborhood drug store and obtain Dr. Pierce's Favorite Prescription in tablet or liquid form. Write Dr. Pierce's Medical Institute, Little Rock, Ark., for free medical advice, or send the for trial pack of tablets to Dr. Pierce's Laboratory in Bridgeport, Conn.

To Care For Tubercular Women

Saskatchewan Council of Women Will Help to Raise Fund of \$50,000

All the women of Saskatchewan, in whatever part of the province, are invited to lend a hand in raising a fund of \$50,000 for taking care of tubercular women belonging to the province. The Provincial Council of Women has decided to make an effort to raise this sum each year to help along the work of the Sanatorium.

A. B. Cook, Managing Director of the Provincial Council, addressed a meeting of the Provincial Council on Wednesday, the huge programme ahead of the Saskatchewan Anti-Tubercular League. It is to get a sanatorium built at Saskatoon, and one at Regina within the next two or three years. In addition to the magnificent amount of health work that is being done at the Sanatorium at Fort Qu'Appelle.

He asked if the P.C.W. thought it likely the women of Saskatchewan had sufficient sympathy with the tubercular, to make them willing to get money enough together to pay for the constant care of fifty women who have tuberculosis.

The Provincial Council of Women believed that the ladies of the province would be proud to have the chance to care for fifty mothers who have not money enough to get treatment for themselves. So Mr. Cook was promised that the P.C.W. will try to make the sum known, and in the how the \$50,000 Fund for Fifty Mothers is raising.

Every woman and every woman's club, or Sunday school class, or organization is invited to help with it. Mrs. F. W. Bates, 2068 Angus Street, Regina, is the P.C.W. Treasurer and will make the money known in some part of this country. Refreshments of the spiritual kind probably have to be the only enjoyment in the United States tourists that some people imagine, however. Of the 617,000 American cars that entered Canada last year, 527,000 passed the customs in Ontario and only 43,000 in Quebec and 26,000 in British Columbia.

Of course many of those entering at Ontario cities would go on to Quebec, but it may be assumed that the majority of the tourists were induced to Canada by other attractions than Quebec and British Columbia. However, from the Ottawa Journal.

HOW TO REGAIN YOUR GOOD HEALTH

It Can Be Done Through Keeping the Blood Supply Rich and Pure

There is not a nook or corner in Canada, in the cities, the towns, the villages, and the farms and in the mines and lumber camps, where Dr. Williams' Pink Pills have not been used, and from one end of the country to the other kind words have been said for this medicine.

You have only to ask your neighbors, and they will tell you of their rheumatic or nerve-shattered men, some suffering woman, ailing youth or ailing girl who has been benefited by Dr. Williams' Pink Pills. For more than a century these pills have been known not only in Canada, but throughout the world as a reliable tonic, blood-enriching medicine.

The success of Dr. Williams' Pink Pills is due to the fact that they go to the root of the disease in the blood, and by making the vital fluid rich, they strengthen the organs and nerves of the body. Mr. A. M. Larue, Victoria, P.E.I., adds his testimony to that of thousands of others who have found benefit through the use of this medicine. He says: "About three years ago I became dreadfully run down. So much so that I had to stop work altogether, and being a carpenter, and busily engaged, the outlook was gloomy. The doctor whom I consulted told me I would have to take a prolonged rest, and give me a bottle of medicine, which, however, did not help me. Then a good friend urged me to try Dr. Williams' Pink Pills, and I got a supply and before long felt an improvement. From that on I continued to gain and was able to resume my employment. I continued taking the pills for some time longer and now feel as vigorous as I ever did."

You can get these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The "Williams' Medicine Co., Brockville, Ont.

OIL LIGHT BEATS ELECTRIC OR GAS

BURNS 94% AIR

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 25 leading universities and found to be superior to 19 ordinary oil lamps. Burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 24 per cent. air and 6 per cent. common kerosene (coal-oil).

The invention, by V. John, 579 McDermott Ave., Winnipeg, is offering to send a lamp on 15 days' FREE trial, or even to give one FREE to the first introducer. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$500 to \$100 per month.

Student of Values

"You did not return the engagement ring when you jilted the young man?" "No," replied the heartless girl. "I find he is unworthy; but it is a perfectly good ring."—Washington Star.

PUT STOMACH IN

ORDER AT ONCE

"Pape's" Diapiesin" for Gas, Indigestion or Sour Stomach

Instantly! Stomach corrected? You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapiesin." The moment it reaches the stomach all sourness, gas, indigestion, heartburn, gases, palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for a few cents.

Protecting Bird Life

We have heard a good deal about the migratory birds convention. The need of an agreement between Canada and the United States for the protection of bird life could not be disputed and, according to reports received by the commissioner of the Canadian nation, it is having most satisfactory results. Black ducks, cornucopia, kill, terns, cranes, Canada geese, brant and plover have shown marked increases.—From the Edmonton Journal.

"We want some of that here!" cried the captain of a certain regiment, to two of his men who were about to have a fight. "We want no fighting men in this regiment!"

WORLD HAPPENINGS BRIEFLY TOLD

Touching an electric wire carrying 2,500 volts while working on a pole at Toronto, William J. Smith, 35, died within a few minutes.

Rev. Joseph Hartman has been appointed Roman Catholic chaplain of the British Columbia penitentiary, in succession to Rev. A. Michael, who has resigned.

The London Board of Trade states that the distribution of trade statistics obtained from Germany under the reparations agreement is being carried out by the British Dyestuffs Corporation, 70 Spring Gardens, Manchester.

The London Times understands that the mission to negotiate the funding of the British debt will likely leave for the United States between the end of the elections and Christmas. Its personnel has not yet been decided.

A special force of customs officers has been established along the international boundary to stop smuggling, declared Hon. Jacques Bureau, Minister of Customs. "I believe we're already almost enough confounded still to dress the whole civil service," he added, lightly.

Every postal telegraph and cable company office in the United States will now accept messages for transmission to Great Britain by the transatlantic wireless circuit conducted by the Radio Corporation of America and Marconi's Wireless Telegraph Company, Limited.

Full growing in Central Saskatchewan is 25 per cent. greater this season than last according to the Canadian Government crop correspondent for that part of the province. A general increase in crop acreage is indicated.

Frank O. Fowler, Mayor of Windsor, has been elected to be a candidate for re-election at the approaching municipal election. Labor men are talking of running P. J. Dixon, leader of the Labor group in the Legislature, for the mayoralty.

A Perplexing Address

Pinned to the wall of one of the offices occupied by the Finance Department, Ottawa, is an envelope bearing the perplexing address:

"Fine Arts Department,

Government House, Ottawa."

The envelope is postmarked Toronto, and contained an inquiry about Victoria Bonds. Many quiet contributions to orthography are received in Ottawa, but "Fine Arts Department" is unique.

Big Bazaar and Chicken Supper

By the Ladies Aid of the United Church at Burdett on

Saturday December 2nd.

In the Building North of Sandy's Pool Room

All kinds of Useful and Fancy Articles

Just the place to Buy Your Xmas Gifts.

Bazaar opens 2 p.m. Supper from 4 p.m.

Mr. N. F. Edlund and family who have been visiting friends in the south country, left last Monday for their home in Los Angeles, California

D.H. Elton, barrister, was in Burdett last Friday, on legal business

Mr. W. L. Warry, who has been spending some time with his son, Mr. Ed. Warry, has returned to his home in North Dakota

The Ladies Aid of the United Church are working over time these days getting ready for the Bazaar which will be held in the old Pool room all opposite the Telephone Office

Will all those who have promised articles for the Bazaar kindly turn them in by the end of the month

Rev. McNab, of Calgary, representing the British and Foreign Bible Society, held a meeting in the Union Church on Tuesday, he spoke in an interesting manner of the Origin of the society and its work and objects, without doubt it is a worthy cause and deserves to be well supported by all Christians

Mr. D. Burnham's House

Burnt to the Ground

The house belonging to Mr. D. Burnham of Bow Island was burned to the ground early Wednesday morning. Mr. Burnham had rented the house to Mr. L. Pomarcast, who was moving in from the country. Mr. Pomarcast had brought a load of furniture in Tuesday evening and stayed all night at the house and left early about 5 a.m. made his breakfast and left to bring in the rest of his goods and family, a little before six, smoke was seen issuing from the roof and the alarm given, but few heard it, however they were in time to save the furniture, but could not save the building

Mr. Geo. Lomas was a business visitor in Lethbridge on Monday

States acreage is, we may hope, I think, a temporary development only. Available lands were brought under very quickly in response to high prices and will probably revert to other uses just as quickly with wheat at bargain prices

In the meanwhile, Austria (or the countries that once formed the Austro-Hungarian empire), and Russia have been eliminated. Will they come back? That seems to be the great question. Austria is sure to resume her position as a wheat producer. Russia owing to transportation problems may not become an exporting factor for many years. Owing to changes in land ownership, she will probably never be as efficient agriculturally as she was clearly the danger of war prices, which led to increased production, which again leads to lower values

In other words, there seem to be a limit to the price per bushel at which Canada can find a ready market for an increased surplus of wheat

Where is this limit? Is it one that will admit of profitable production? It just comes down to a question

of our ability to compete. We need have no fear of the United States in the field of competition. Her stand in life is, at least, as high as our own. With wheat at present prices, she will soon cease to produce for export. Besides the high protective tariff against foreign agriculture products will obviously promote the raising of such commodities as that country now imports, such as wool, meat, dairy products etc. etc. because they will, of course, carry the price premium forced upon the consumer by the high tariff, the wheat grower, on the other hand, enjoys no protection as long as this country is on an export basis and wheat production will not therefore, be attractive

Canada can produce, at least, as cheaply as Australia, and the Argentine has its limitations. Europe will now be on an entirely new footing in respect to farm operating costs. The standard of life of the laboring classes has been raised permanently. The government taxation will inevitably be reflected in farming costs. The present is the tail-end of the period of

readjustment following a destructive war. Several influences are at work to depress grain prices. The financial disorder of European countries, badly in need of wheat, but unable to buy except to accept actual starvation, is a factor of enormous importance in present depressed prices. The whole of Europe is, more or less, on a diet bordering on starvation. Even in Great Britain unemployment reinforces the utmost economy in the daily diet

There are many reasons for concluding that pre-war prices for wheat will ultimately lead to underproduction naturally followed by starvation in importing countries. The price situation is not devoid of favorable possibilities, inasmuch as Western Canada, taking fully into account our transportation handicap, will probably be able to produce at a figure, including a reasonable profit, which would mean ruin to the European and American farmer. This is the long range view of the present situation and has no particular bearing on present prices, which evidently have not yet found their level. The wheat market is bound to be erratic until the new cost basis is ascertained. In such producing country and that will take time. How long no one can tell

Mr. Frank Ley who has been spending some time with his brother Mr. John Ley has returned to his home in the States

Mr. and Mrs. Conrad Taylor of Lethbridge are spending a few weeks with Mrs. Taylor's parents Mr. and Mrs. Oelke

We are indeed very pleased to report that Mr. and Mrs. D.M. Garrison who have been on the sick list, are recovering. "The Review" sends its "Best Wishes" to you "Doc" and to Mrs. Garrison and may you both soon be hale and hearty again and when you are, come and see us, old friend

Mr. and Mrs. Robt. Connor have decided to name their young daughter Alberta Alberta

CHIROPRACTIC (Spinal Adjustments)

goes directly to the cause of disease. It is a strictly designed and non-surgical method. Acute and Chronic ailments both yield to it. It proves very beneficial in Nervous troubles, Headaches, Fevers, Skin Eruptions, Asthma, Lumbago, Sciatica, Rheumatism, Constipation, Appendicitis, Gall Stones, Grief, Female Complaints, etc., and in diseases of the internal organs such as Lungs, Stomach, Liver, Spleen, Kidneys etc.

Take Chiropractic Adjustments and be Healthy and therefore Happy
